

4. Project Planning Phase

Project: COMIC CRAFT – Interactive Comic Story Website

Development Plan

S.No.	Item	Details
1	Phase 1	Finalize concept, target users and comic content
2	Phase 2	Create folder/repository structure
3	Phase 3	Build HTML page structure
4	Phase 4	Apply CSS theme and responsive layout
5	Phase 5	Add JavaScript interactions
6	Phase 6	Add comic stories and character data
7	Phase 7	Test on different screen sizes
8	Phase 8	Prepare documentation and demonstration

Task Allocation

S.No.	Item	Details
1	Planning	Define scope and page requirements
2	Design	Create visual theme, cards and navigation
3	Development	Implement HTML/CSS/JavaScript
4	Content	Prepare comic story and character information
5	Testing	Check links, layout, buttons and responsiveness
6	Documentation	Prepare phase-wise project records

Risk Management

S.No.	Item	Details
1	Broken links	Test every navigation link before submission
2	Layout issues	Use responsive CSS and test multiple widths
3	Missing assets	Keep all required assets inside the repository
4	Browser differences	Test in at least two modern browsers
